OF FOUL PLAY

In Connection With Death of Thomas Daley, Found in Water Near Drawbridge.

Burlington, Nov. 15 .- The relatives of homas Daley, whose body was found in the water near the drawbridge Saturday, believe that the young man came to his death through foul play. They say that young Daley had a considerable amount of money with him when he left home for Burlington and that only a small amount was found in his clothes at the time the body was picked up in the slip. They say that the man's neek was broken and his face bruised.

Henry Daley, a brother of the dead man, said: "At the place where the body of my brother was found the water was about 12 feet deep and the railroad track was about four feet above the water. The fact that the neck was brok-on, I think, is evidence that some act other than the falling from a train was the cause of death as at this point the body would have been thrown into the water and that without force enough to dislocate his neck. Also

thrown into the canal slip. When he left home four weeks ago last night to report for duty he had quite a little money in his possession. He was seen about the Burlington depot that same night after the train on which he left here had left Burlington. This was the last account we have of his being alive. The first news that was received of him after be left home was on Saturday when was received word from Burlington that the identified body of my brother Tenement of four rooms at No. 23 So.

Who Feel Tired and Fail to Get Refreshed by Sleep, Are on the Verge of a Serious Train of Diseases.

At first there will be a great languor, especially in the morning, faintness, dizziness, weakness or sinking at the pit of the stomach; the appe tite will be variable, digestion impaired; palpitation of the heart, shortness of breath, cold hands and feet, headache, paleness, dark circles under the eyes, and a dragging pain across the hips and loins. The blood becomes thin and watery, and the nerves lack ing in strength, the complexion sal low, the cheeks sunken, the bust flattened and reduced, the memory poor, the mind weakened, the disposition irritable and nervous, the least noise often producing complete nervous prostration. By feeding the blood and nerves with Dr. Chase's Blood and Nerve Food, the weak parts are made strong, the weight increased, the sunken cheeks and flattened bust fill out and become firm and plump; the enriched blood makes the complexion clear, the lips red, the eyes bright, and gives new life, strength and animation to the system. Price 50 cents. Sold and guaranteed by E. A. Drown.
